

## ACCF Fungal Species List: January 28-30, 2011

All collections from Mendocino County unless noted by asterisk.

Agaricus bisporus  
Agaricus hondensis  
Agaricus moelleri  
Albatrellus pes-caprae (now Scutigera pes-caprae)  
Alboleptonia sericella  
Aleuria aurantia  
Aleurodiscus grantii  
Amanita constricta  
Amanita franchetii  
Amanita gemmata group  
Amanita velosa\*  
Annulohyphoxylon thouarsianum  
Armillaria mellea (honey mushroom)  
Arrhenia epichysium  
Ascocoryne sarcoides  
Astraeus hygrometricus  
Astraeus pteridis\*  
Auriscalpium vulgare  
Battarrea phalloides\*  
Bjerkandera adusta  
Callistosporium luteo-olivaceum  
Calocera viscosa  
Calyptella capula  
Camarophylloopsis foetens (mothball fungus)  
Camarophyllus russocoriaceus  
Cantharellus formosus  
Cantharellus subalbidus?  
Chlorociboria aeruginascens  
Chromosera cyanophylla  
Clavaria fumosa  
Clavariadelphus occidentalis  
Clavulina cinerea  
Clavulina cristata  
Clavulinopsis laeticolor  
Clitocybe fragrans  
Clitocybe nebularis  
Clitocybe sclerotoidea  
Clitocybe sp.(2)  
Conocybe tenera  
Coprinospora nivea  
Cortinarius alboviolaceus  
Cortinarius bififormis  
Cortinarius rubicundulus  
Cortinarius sp. (Bulbopodium)  
Cortinarius sp. (Telamonia)  
Cortinarius sp. (2)

Craterellus cornucopioides  
Craterellus neotubaeformis  
Crepidotus applanatus  
Crepidotus calolepus  
Crepidotus crocophyllus  
Crepodotus mollis  
Crepidotus sp.  
Crucibulum laeve  
Cystoderma amianthinum (wrinkled cap)  
Dacrymyces palmatus  
Deconica sp.  
Dermocybe sp.(3)  
Elaphocordyceps capitata (truffle-eating cordyceps)  
Flammulaster sp.  
Fomitopsis cajanderi (rosy conk)  
Fomitopsis pinicola  
Galerina badipes  
Galerina clavata  
Galerina vittiformis  
Galerina sp.  
Geastrum floriforme \*  
Geastrum saccatum  
Geastrum sp.  
Gomphidius subroseus  
Gomphus clavatus (pigs ear)  
Gomphus floccosus  
Guepinia helvelloides/Phlogiotis helvelloides (apricot jelly)  
Gymnopilus sapineus  
Gymnopilus sp.  
Hebeloma sp.  
Helvella lacunose  
Helvella maculata  
Hemimycena tortuosa (corkscrewed cystidia)  
Hemimycena sp.  
Hydnellum aurantiacum  
Hydnum repandum  
Hydnum umbilicatum  
Hygrocybe coccinea  
Hygrocybe conica  
Hygrocybe flavescens  
Hygrocybe flavifolia  
Hygrocybe fornicata sensu Thiers  
Hygrocybe laeta  
Hygrocybe marchii group  
Hygrocybe miniata  
Hygrocybe pratensis var. pratensis (Camorophyllus pratensis)  
Hygrocybe psittacina  
Hygrocybe punicea (bright form)  
Hygrocybe punicea (dark Northern form)  
Hygrocybe singeri  
Hygrocybe sp. (2)

Hypholoma capnoides  
Hypholoma fasciculare  
Hypholoma marginatum  
Hypocrea pulvinata  
Hypomyces cervinigenus  
Inocephalus cystomarginatus  
Inocybe calamistrata var. mucidiolens  
Inocybe geophylla  
Inocybe geophylla var. lilacina  
Inocybe grammata  
Inocybe pudica  
Inocybe subochracea  
Inocybe sp.  
Jahnporus hirtus  
Laccaria amethysteo-occidentalis  
Laccaria laccata group  
Laccaria longipes/nobilis group?  
Lactarius fallax  
Lactarius kauffmanii var. kauffmanii  
Lactarius rubidus  
Lactarius subviscidus  
Leccinum manzanitae  
Lenzites betulina  
Leotia lubrica  
Leotia viscosa  
Lepiota atrodisca  
Lepiota castanea  
Lepista inversa/flaccida group  
Leptonia sp. (2)  
Leratiomyces ceres  
Leucogloea compressa (anamorph)  
Leucopaxillus albissimus  
Leucopaxillus gentianeus  
Lichenomphalia umbellifera (a lichen that produces an actual mushroom!)  
Lyophyllum decastes  
Lyophyllum sp. (blackening)  
Marasmiellus candidus  
Marasmius plicatulus  
Marasmius quercophilus  
Melanoleuca stridula  
Melanoleuca sp.  
Merulius tremellosus  
Microglossum viride (green earth tongue)  
Mollisia sp.  
Mycena oregonensis  
Mycena pura  
Mycena sanguinolenta (bleeding mycena)  
Mycena sp. (3)  
Nidula niveotomentosa  
Nidula sp. (birds nest fungus)  
Nolanea sericea

Nolanea staurospora  
Nolanea sp.  
Otidea onotica  
Panaeolus papilionaceus  
Phaeolus schweinitzii  
Phanerochaete sanguinea (red stain)  
Phellodon atratus  
Pholiota sp.?  
Pholiotina sp.  
Plectania melastoma  
Pleurotus ostreatus  
Pluteus cervinus  
Pluteus romellii  
Postia fragilis/Oligoporus fragilis  
Psathyrella longistriata  
Psathyrella piluliformis  
Pseudohydnum gelatinosum (cat's tongue jelly)  
Ramaria abietina?  
Ramaria formosa  
Ramaria myceliosa  
Ramaria sp. (3)  
Ramariopsis kunzei  
Rhizopogon occidentalis  
Rhodocollybia oregonensis (almondy odor)  
Rimbachia bryophila (tiny white pleurotoid mushroom on moss)  
Royoporus badius/Polyporus badius  
Russula laurocerasi  
Russula cremoricolor  
Russula fragrantissima  
Russula nigricans  
Russula puellaris  
Russula sp. (2)  
Sarcosoma mexicanum  
Scutellinia scutellata? (eyelash cup fungus)  
Scutiger pes-caprae/Albatrellus pes-caprae  
Simocybe centunculus  
Sowerbyella rhenana (stalked orange cup)  
Stereum hirsutum  
Suillus tomentosus  
Tapinella panuoides  
Thelephora terrestris  
Trametes versicolor  
Tremellodendropsis tuberosa  
Tremella aurantia (witches butter)  
Trichaptum abietinum  
Trichaptum bifforme  
Trichoglossum hirsutum  
Tricholomopsis rutilans  
Tubaria sp. (striate cap, orange gills)  
Tulostoma brumale  
Tyromyces chioneus

Xeromphalina campanella  
Xeromphalina sp.  
Xylaria hypoxylon  
Zelleromyces sp.

**215 species identified.**

**Identifiers:** Oluna Ceska, Phil Carpenter, Henry Young, Doug Smith, Noah Siegel, Christian Schwarz, Erin Blanchard, Debbie Viess, Kim Travers, Hildegard Hendrickson.  
Other ACCF participants pitched in to help ID as well.
